DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Bunnell Bay and its outlet at Mosquito Inlet. It is 15 miles 29, seventy-four miles from St. Augustine and one mile from the Atlantic ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is one which is known as high and moist land that was covered by nature with a most royal growth of palm trees, palms, and among these trees the town of today, with its beautiful edifices and well-kept lawns and streets. The main avenue is the stiff belt of wide avenues that intersect the town like bold bayonet-like oak and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overhang the street and walk, and among these are interspersed tall tropical palmettos, glossy leaved magnolias, fragrant bay and coral-beerled holly, and many other varieties, while in many places the wild grape, the trumpet vine and the impetipetum climb and cling among the branches forming shady bower and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all too feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well graded, paved and shelled roads and streets, rendering it the

Wheelman's Paradise
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivaled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona
is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingstone, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach.
